

To the Max Solutions

Digital Business Cards

Our digital business cards link directly to your website and social media accounts, can be updated quickly and conveniently, and come complete with a QR code for easy scanning and saving. Plus, our planet will thank you for using them.

How do they work?

Complete the Business Cards form on our Business Partner portal and select your preferred design from the templates. Please note that the Consultant Collateral form must be completed for consultants who require a digital business card. As soon as we've completed the design, simply place the QR code next to your logo on any of your marketing material and get your name out there!

Costs

The first two cards are free – additional cards are available and will be charged at a pro rata subscription fee per card until the end of December. The annual subscription fee of R480 (excl. VAT) is renewable every January.
